### INTO A SWITCH.

East Bound Freight on the P., Ft. W. & C. Wrecked.

Run Into a Yard Engine on the Paper Mill "Y"—Two Tramps Hurt.

This afternoon about 2 o'clock, while P., Ft. W. & C. yard engine 33 was on the paper mill "Y" coupled out several cars of coal, and a couple of others loaded with paper, ready to move them, the first section of east bound freight No. 18 came up at a high rate of speed to get a good start for the grade toward Lafayette.

Engineer Fry, of this city, the engineman on the freight, saw the switch was opened and whistled for brakes and attempted to stop the train.

The yard crew heard the whistling for brakes and an effort was made to reach the switch in time to throw it before the freight train reached it, but without success, and the freight ran onto the "Y," crashing.

INTO THE YARD ENGINE

With such force as to turn it almost completely around. Engineer Myers and Fireman Preisings jumped before the crash came and escaped with a few bruises.

Engineer Fry remained on his engine until it came to a stop. Six or eight cars of the freight were wrecked and two tramps who were asleep on a flat car were buried with the debris and crawled out with a few bruises.

At the upper end of the "Y" was a car of coal which a boy was unloading into the coal house. The car was not attached to the engine, but the others were sent up the track by the collision and striking the car, shoved it through the brick wall of the rotary building, the west side of which was nearly entirely demolished. The boy at work was knocked down, but not hurt very much.

Passenger trains are being transferred around the wreck by way of the C. & E. until the debris is cleared away, which will require several hours.

Both engines were badly damaged by the collision.

### GREATLY EXCITED

Over the Abandonment of the Load of Nitro Glycerine.

The Police Removed it Last Night—The Case to be Tried Tuesday.

The driver of the wagon containing about twenty-five hundred pounds of nitro-glycerine, who was stopped yesterday afternoon by Chief Haller, who acted under direct instructions from the city council, mention of which appeared in yesterday's Times-Democrat, proved to be Wm. Hays, driving for the Bradford Glycerine Company, of Findlay. He was on his way from the latter place to St. Marys.

Chief Haller had no intention of detaining the man with the explosive longer than to get his name and the name of the company he represented, but Hays, upon being stopped, dismounted from the seat and left the team and glycerine in the chief's possession, greatly to the latter's discomfiture.

Driver Hays was ordered to drive out of the city with the stuff, but he refused and the chief unloosed the horses and put them in a livery stable and took Hays to the police station where he furnished bail for his appearance when wanted.

The Bradford company was telegraphed and replied that this representative would be here this morning.

Policeman Blair was left to guard the glycerine wagon which was run to the side of the street near the South Pine street school building. In a very short time the residents were aroused and made a vigorous complaint and wanted the dangerous stuff removed.

Leont. Barker went out last night about 9 o'clock and hitching the team to the wagon, and hauled it outside the corporation south of the city and left Policeman Marks to see that no one molested the vehicle.

One of the members of the firm arrived over the L. E. & W. at 9:25 o'clock this morning, and after securing an attorney to defend Hays had a plea of not guilty entered and the case set for a hearing next Tuesday at 10 o'clock.

Hays was then instructed by his employer to take his team and proceed with the load, which he did.

If the case ever comes to trial the chances are that the city will be better headed the ordinance is not properly drafted. The State law provides that a corporation may designate through what streets and at what hours the explosive may be transported, but does not give corporations power to entirely prohibit the transportation through their boundaries.

### AMONG THE RAILROADS.

RAILROADS REFUSE TO PAY.

It now develops that the railroad, after having received the protection of the United States courts during the late strike, refuse to pay for the benefits received. A telegram from Indianapolis says: "The notice of the Federal clerk of the courts to the various railroad companies in Indiana to appear and pay the costs of the several injunctions issued at their demand against the strikers has developed the fact that the roads intend to resist the payment of the costs. They were charged for copies of the restraining orders but say that these were part of a proceeding for the benefit and protection of the United States and that no part of the expense can be lawfully charged to them."

### BOUGHT A CAR COULET.
